

# Injection Mold Progress Report

Part Name A53201 / A53202 / A53203  
 Cavity 1\*4 / 1\*2 / 1\*2  
 Report Date 2023/5/25  
 Purchasing Order NO. PO 8766

■ Estimate Date  
■ Actual Status

Item	Status	Timeline																														
		1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31
PO release and receipt of deposit	Estimated	<input checked="" type="checkbox"/>																														
	Actual																															
Mold Layout Design	Estimated						<input checked="" type="checkbox"/>																									
	Actual																															
Mold Layout Design Approval	Estimated					<input checked="" type="checkbox"/>																										
	Actual																															
Detail Component Drawing	Estimated																															
	Actual																															
Order Material	Estimated																															
	Actual																															
Order Mold Base	Estimated																															
	Actual																															
Order Standard part	Estimated																															
	Actual																															
CNC program and machining	Estimated																															
	Actual																															
Rough Machining Cavity	Estimated																															
	Actual																															
Rough Machining Core	Estimated																															
	Actual																															
Heat treatment	Estimated																															
	Actual																															
Make Electrodes	Estimated																															
	Actual																															
Precision Machining cavity	Estimated																															
	Actual																															
Precision Machining core	Estimated																															
	Actual																															
EDM Machining	Estimated																															
	Actual																															
Wire cut	Estimated																															
	Actual																															
Ejection system	Estimated																															
	Actual																															
Injection System	Estimated																															
	Actual																															
Cooling system	Estimated																															
	Actual																															
Polish	Estimated																															
	Actual																															
Fit & Assemble Mold	Estimated																															
	Actual																															
1st. Trial	Estimated																															
	Actual																															
Sample Inspection report (FAI)	Estimated																															
	Actual
